We hear that a Mr. Rennell is appointed to: be harbour master at Shanghai under the new regime, and is expected here shortly. Mr. Rennell was we believe, formerly in charge of the Union Dock at Canton. A atrange report reaches us from Sydney that im export duty of 4s a bou on English Coal is contemplated, it is stringe that so startling a measure should not have found daylight in England first, and we should be inclined to atterly disregard the runsour; but that we have sydney dealers intend to operate

on the prospect.

Besides the gold fields to which we although recently, as being worked by Cantoness and foreigners near Chefoo, we hear that others, 60 miles distant, have been opened by some thousands of villagors, who are setting mandarin upposition at defiance. Everything tends to varify the lines apoken in a prologue to a late theatrical performance at Chelon :-

THE ". H. " BENAHES."

The following decision has been arrived at by

Naval Court held to enquire into the loss of in P. & O. S. Bertister. The Court having emefully weighed and condered the whole of the evidence fare of piaton F Jut.—That although all due precautions were be used track of stangers; we consider that influence of the tide took her somewhat id of her course at a place where it is not presible to ascertain with any accuracy either the set or relacity of the tide. Looking at the listinge of the spoton which there ip struck from he trival track (only about 25 miles) and bearg in mind that at least ten minutes clupsed, a uring which the wearel best at lengt a mile heaugh the negligence of the officers on the ok-out, and not of the master, Mr. W. McCulest, and scoing that the thester was during but time looking at his chart, the Court is of minion that no blame attropes to Mr. McGulch; master of the ship Benares.

2nd - Considering that Mr. Richard Guerserland, junior officer of the watch did not use the ordinary and obvious precaution after sening the land should, of halling to bave. the ship stopped, of the helm shifted but left the forecastle to communicate perconally with the officer of the water. whereby time was lost; and count-dering that Mr. Henry Hurigell, officer of the watch, who had been left in charge of the resul, after the surposed had bed been pointed out to blue, did not at once either stop the vessel, or shift her belon as was his undoubted duty, but went leisurely down the Indder to look for the unater, thereby losing time enough to have reversed, and in all probability have saved the the ship, the Court is of opinion that the Bearres was look by the negligence of Mr. Richard Cumbarland, funior officer of the watch, and Mr. udgett, officer of the watch. The Court doth therefore purpond the certiigates of the said Mr. Cumberland and Mr.

Henry Hudgell, for a period of six months: And the said Mr. Bishard Comberland and Hr. Henry Hadgell's certificates are hereby mapended for six months, and the said Mr. Win. Mc.Culloch, master, and the other officers of the ship are hereby acquitted of all blame accordingly.

There can bond doubt that the Chinese mercantile community are already in a "fonk" about the rimoured intentions of the Chineso histoms' duthorities with regard to the trade of this colony. Although as yet the story only includes epinim as the article about to be subjected to the "aquivize," still the natives very nightly say, if the thing is once done with Opining Please Goods will soon Above the coming hato, and eventually all articles of trade. That these remours are now lawing a very important influence upon the stagnant-condition of business in this colony there our be no question, and notil the ingrehants ares assured that trade is to be annielested, the timit, and a very large charathey are too, will continue to hold back. Surely sam requely smot be at hund, and it is to be hoped for the gital interests of this colony that when the remedy is found, and determined upon, it will prove once for all effectual, and insuragainst any repetition of the outrage is any shape whatever. There is nothing la report in the market for piece goods, so far as: any business is concerned, and we hear of no sales. The Chinese appear to be buyers at . their own prices but these are far too low to be entertained by bolders. The last few days they have been using their last officeta to Bear the market, but as yet without effect, so far as any business; in concerned. For 8 lim. T-Clotics. \$1,00 is offered for good, average qualities, but holdegs are unwilling to submit to this rate. Although the market is very for from firm, still: tis is just in this condition at presunt that is revival of business is all that is necessary to give it an upward tendency. Raw Cotton con-

The North German brig Frederick Wilhelm from Nowport on the 30th December, reports having bad fine weather on leaving port, and a continuation of the same to the Jeland of Madiera where the first of the vessel's minfortunes commanced. Off this laland, one evening at seven o'clock, a large British ship ran into the Frederick Wilhelm, carrying away her foreyard; and some other light spars. The damage anatained by the vessel was not sufficient to require her to go into port, so she continued her voyage, and had fine N.E. trades to the line, which was crossed on the 3rd February, in long. 26 W. Had moderate S.E. index, and fine weather to the Cape of Good Hope, the meridian of which was crossed on the 18th March, in lat. 44 S. Experienced moderate weather in running down the Easting, and afterwards in sailing Northward light B.E. trades. On the 11th April when in lat. 102 E. and lon; 20 S. a terrific squall caught the little craft, and took everything out of herecopt her lower masts, the yards and rigging being all smashed to pieces. The captain kept on his contree, and sighted Java Read at last on the 18th April, and arrived at Anjer on the 27th of April. After a stoppage of one day the Frederick Wilhelm nisde for Batavia, and arrived there on the last day of April. The repairs necresary or the vessel took some time to complete, but it was not found expedient to take the cargo out of here, she being docked with the coal still aboard. Left Butavia on the 25th June, and up the China sea had light. W. meason, but generally calms to arrival; 197 days from Newport.
